🌀 Overview 🌀

The purpose of this guide is to walk you through how to configure the remote audio options in Microsoft Remote Desktop. These steps are necessary when using Remote Desktop to remotely control AV Capture for recording. If at any time you have questions regarding this process, please call our customer support line at [888-360-2822](tel:888-360-2822) or email us at Support@AVCaptureAll.com.

🌀 Directions 🌀

Step 1: In Remote Desktop, click the Show Options button.

Step 2: Navigate to the Local Resources tab (①). In the Remote Audio section, click the Settings button (②).

Step 3: In the Remote Audio Playback section of the pop-up window, select the “Play on remote computer” radio button. Click OK.

🌀 Summary 🌀

If you followed the steps above, you should now be able to remote into the recording PC and use AV Capture to record audio. If this is not the case, please call our customer support line at [888-360-2822](tel:888-360-2822) or email us at Support@AVCaptureAll.com.
